Eternal Belt Buckle

Adds 1 socket to a belt item – Blacksmith crafted item

Note: Any colored gem can be placed in any colored gem slot. I recommend that if you are tanking you only slot Defense Rating gems to get your defense as high as possible. Once you hit the 540 Defense cap, then you can ease off and start replacing gems with ones that will allow you the socket bonus and build your character out in different ways.

Deft Ametrine			10		10
Fierce Ametrine	10				10

Quick King's Amber					20

Note that haste will only affect your auto attack speed and the speed of your ghoul. A haste boost may be only a minor increase to non-Unholy spec
